H.C. page —

Dear Vickie and Jimmy,

Our summer weather seems to be over and now the rain has started and we even have to have the heat turned on in the mornings. Our remodeling is nice and the plumber is coming today so the down stairs bathroom is going to be much nicer, and the laundry room looks real good.

It is hard to believe that Deanne is just about five years old and starting school. I would like to be there for her birthday but we are still thinking about coming out October 15th but I will be talking to you.

I wonder how your friend Meery liked the hurricane. I hope it doesn't get up to Virginia.

Dad is going to the super market now so I will stop. Just wanted you to know I am thinking of you.

Love, Mom.
